

# Nourishing Body Cream in Stick

## 2308B— NBCS (part of Indian Summer kit for holistic well being)

As the days get sweeter and the colors warmer, it's time to adopt a beauty routine that captures the spirit of this unique time. Combining sustainable, natural and efficient ingredients, this kit contains everything you need to nourish, and protect your skin in a world where taking care of yourself goes hand in hand with taking care of the planet.

Based on Plantsil Xlite, our ultralight alternative to silicone or/and Natural BBB, our multifunctional ready to use balm base, or/and our upcycled Olive Squalane all the formulas delivers a unique sensation of lightness and smoothness leaving a delicate veil on the skin insuring protection, nutrition and wellness.

Thanks to this nourishing body cream in stick, no more dry spots! The synergic action of our Natura-Tec Abysoft™ in association with Natura-Tec OceanMist CL™ enhances deep and long-lasting hydration while regaining a healthy barrier function which can be weakened by the summer sun.

Slipping easily into your bag, the stick form is adapted to an on-the-move life style...

|   | Ingredients                     | INCI   | %     | Function   |

|   | Geogard ECT                     | Benzyl Alcohol (and) Salicylic Acid (and)<br>Glycerin (and) Sorbic Acid  | 0,50  | Preservative   |

### PROCEDURE

Heat phase A and phase B up to 75°C.  
Add phase B to phase A under high shear stirring, add phase C,  
Homogenize using Ultra Turax (2min at 7000 rpm) at 80°C and pour it immediately.

### APPEARANCE

Thick and smooth ivory stick.

### WAY OF USE

Apply with the stick directly on the skin and massage the body.
