

**A Multitasking active for skin, hair and colour cosmetics**

## Natura-Tec Abysoft™

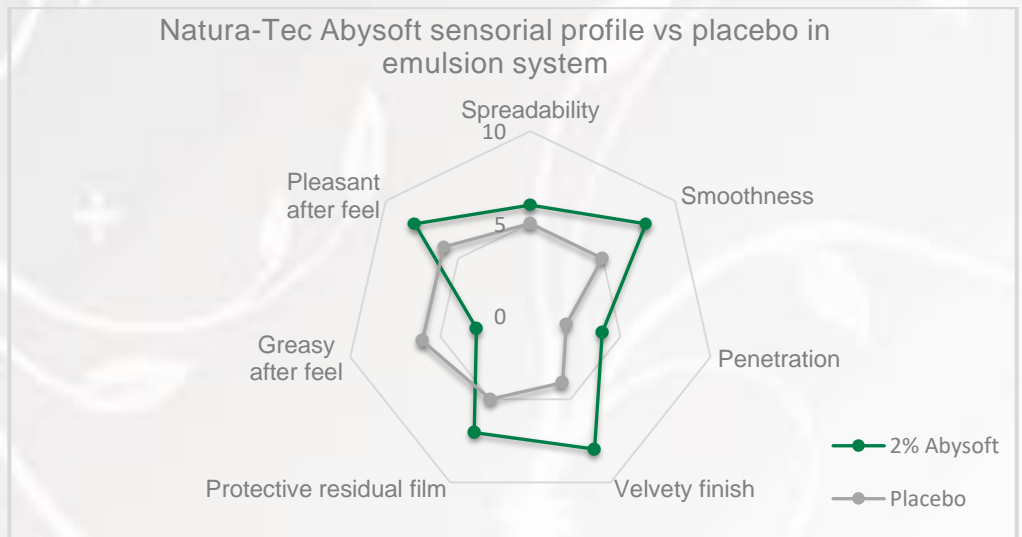

### Multifunctional Performance Enhancer

**NATURA-TEC ABYSOFT™** is an “intelligent” active COSMOS approved that combines and enhances the benefits of Crambe Oil with the bio-active effects of Phytosterols.

**NATURA-TEC ABYSOFT™** is an excellent moisturizer, creating a protective long lasting and velvety film. **Increasing the hydration rate over 60% after 5 days**, it protects the cutaneous barrier with a maximum of comfort and suppleness with no greasy residual effect.

**NATURA-TEC ABYSOFT™** protects and maintains hair’s natural vitality against both mechanical and environmental stress. It improves **hair elasticity** (+191% after 12 washing/treatment), increases **hair brightness** (+50% after 12 washing/treatment), and shows a strong conditioning effect with an immediate impact on the increase of **hair volume**. Our active displays significant levels of **protection against damage** induced by high temperature **hair straighteners** (180°C) as well as **color protection against UV and sea water aggression**.

**NATURA-TEC ABYSOFT™** features **co-emulsifying properties** allowing to create **emulsifier and palm free** cosmetic products which are original and distinctive with ultra-light and watery texture that offer comprehensive skin and hair benefits.

Natura-Tec Abysoft improves smoothness, velvety finish, protective residual film and pleasant after feel characteristics.
