

## **NATURA-TEC CRISTALSOFT WAX** **Vegetable Depilatory Wax**

### **PROPERTIES**

**NATURA-TEC CRISTALSOFT WAX** offers a reliable and easy solution to hair removal. It helps to remove dry or dead skin cells from the upper epidermal layer performing an exfoliating function and improving skin feel and appearance.

**NATURA-TEC CRISTALSOFT WAX** will help to protect your skin and allow it to feel soft, smooth and rejuvenated for longer thanks to its advanced formulation.

**NATURA-TEC CRISTALSOFT WAX** is a convenient, longer-lasting and fast method of removing hair from sensitive areas of the body. Waxing does not cause cuts, pigmentation or unpleasant skin odours. No harsh chemicals are present in waxes and skin is therefore protected from aggression.

**NATURA-TEC CRISTALSOFT WAX** is highly skin compatible. It allows to reduce pain and redness induced by hair removal. Therefore, this product helps make the depilatory session a moment of relaxing and wellness.

Shiny and transparent like a crystal, **NATURA-TEC CRISTALSOFT WAX** is an all-natural depilatory wax based on 100% vegetable derived ingredients. Its advanced formulation will protect and nourish your skin leaving it glowing and silky smooth.

**NATURA-TEC CRISTALSOFT WAX** is dedicated for sensitive areas with good adhesion properties. Its efficacy and the synergy of its natural ingredients offer important benefits to the ritual of achieving an attractive and perfect skin.

Once melted, **NATURA-TEC CRISTALSOFT WAX** reaches the optimal consistency, it adheres homogeneously to the surface and the hair with a slippery effect on the skin. Moreover, after a depilatory session, remaining product residues are easy to remove. Therefore, its various properties facilitate its application, make it easy to use and suitable for professional use.

### **COSMETIC APPLICATIONS**

- Dosage & Use : Once melted (melting point 60 – 70°C) the product is applied warm as a thin layer to the skin zone that will be waxed. Thanks to its fast-drying properties the product can be removed very quickly in one piece. It offers a fast and efficient depilatory session with all hair types (short and long).
- Application :
  - Waxing and hair removal products for both men and women dedicated for sensitive areas such as face and armpits.
  - Waxes, sticks or dispensers for home and professional use.
