

NATURAL BBB - Beauty Base Balm Multifunctional Balm Base

PROPERTIES

NATURAL BBB - Beauty Base Balm is a 100% natural derived base, Cosmos approved, Palm free and vegan compliant. This multifunctional balm has been developed to facilitate the formulation work and improve the cost effectiveness of the finished product.

NATURAL BBB - Beauty Base Balm is a texturizing agent. This product has a butter like consistency with high malleability and softness whilst having a high melting point at around 73°C. **NATURAL BBB - Beauty Base Balm** gives softness and smoothness to formulations with a silicone feel at application, a good absorption and a velvety finish. In emulsion systems, **NATURAL BBB - Beauty Base Balm** gives high consistency, non-sticky and non-greasy after feel.

NATURAL BBB - Beauty Base Balm has co-emulsifying properties helping to stabilize emulsions thanks to its specific natural crystal network. In anhydrous formulations, it has the ability to bind up to 15% of water.

NATURAL BBB - Beauty Base Balm has been tested with a wide range of oils and presents an excellent compatibility with natural and derived natural oils.
